

GEN. OTIS WANTS 40,000 SOLDIERS

Sends Word to the War Department.

WILL FILL UP VOLUNTEER REGIMENT TO QUOTA.

In Answer to the Inquiries Sent Him He States That This Number Will Be Sufficient—Quartermaster General Says It Will Be Impossible to Bring Last of the Volunteers From the Philippines Until the Middle of September.

Washington, July 3.—[Special]—General Otis has made reply to the inquiries of the war department concerning the number of men required to fill the regular regiments saying he needs a little more than six thousand men. He also requires two thousand men to fill out the volunteer regiments.

This will give him forty four thousand men, which force he evidently considers ample for all occasions that may arise.

Washington, July 3.—[Special]—The quartermaster general says it will be impossible to bring the last of the volunteers from the Philippines until the middle of September, owing to the lack of transportation facilities for the long ocean voyage.

Attack the Americans.

Manila, July 3.—[Special]—News has just been received here of an attack on the American troops at Negros, while the California Volunteers were preparing to embark for home. About two hundred and fifty attacked the small body of Californians at one small post, killing one and wounding another belonging to company E. The Filipinos were easily repulsed.

Washington, July 3.—Col. Charles Bird, in charge of transportation in the quartermaster's department, says that ample arrangements for the transportation of the newly organized volunteers to the Philippines are being made. It is estimated that it will be nearly a month before the majority of these troops will be ready for service, and inside of that limit there will be quite a fleet of transports assembled at San Francisco. After the new troops have been recruited at the various stations throughout the United States they will have to be concentrated at certain points and organized into companies, battalions and regiments. They will then have to be thoroughly equipped and drilled and disciplined before they will be in a suitable condition for service.

The Sheridan, Pennsylvania and Zealandia, carrying in all 3,807 troops, recently sailed from San Francisco for Manila. Adding to these troops such as can soon be carried on other transports it is figured that about 12,000 soldiers can be landed in Manila by Sept. 20, or in plenty of time for active operations, which will be resumed a little previous to that date. It is possible, too, that the large troopships Logan and Thomas, which are being fitted up at New York for service with the Pacific fleet, can be got ready within a month or so, and in that event they will be loaded with several thousand troops and dispatched by way of the Suez canal to Manila. These two vessels, with those already described in the Pacific ocean, can easily accommodate the 12,000 volunteers which are to be organized for the Philippines, in addition to the Nineteenth infantry and 2,500 recruits now in the Presidio at San Francisco awaiting transportation.

It is possible that several regiments of marines may be sent to the Philippines to assist the troops now under command of Gen. Otis. According to Gen. Heywood, commandant of the marine corps, men are being enlisted as rapidly as possible to fill the ranks of his corps to their maximum strength provided for by congress at its last session. The work of recruiting men for this branch of the service is comparatively slow, but if there is any inclination on the part of the president to utilize this corps in the Philippines recruiting stations can be established and the work rushed. The enlisted men of the marine corps are excellently drilled and disciplined, the standard being far ahead of the army. In several months, it is understood, Gen. Heywood could place several regiments, composed of 1,200 men each, in the Philippines. Gen. Heywood, too, is exceedingly anxious to secure such service for his men.

SATISFIED WITH THE OUTLOOK.

Prof. Schurman Takes a Hopeful View of the Situation.

Manila, July 3.—Prof. J. G. Schurman of the United States advisory commission for the Philippines returned to Manila Sunday from a three-weeks' tour of the southern islands. He takes an entirely hopeful view of the general conditions there. The intelligent and substantial citizens desire an American protectorate. The masses are awaiting the settlement of the war

in the island of Luzon before declaring themselves. They are chiefly anxious to be undisturbed.

The president of the commission thinks this declaration fairly expresses the sentiments of the people in the southern islands of the archipelago. Many of the towns there are in the hands of small bands of Tagalos, and the people fear to indorse American rule until they are certain that Aguinaldo must be beaten. Let them once be convinced of this, and the allegiance of the southern islands, Mr. Schurman thinks, can be secured by diplomacy.

Otis Is to Enlist 15,000 Men.

Washington, July 3.—Having heard from Major Gen. Otis that he needs 6,338 men to fill up the regular regiments and about 2,000 men for the two volunteer regiments, he was authorized to enlist about 15,000 men. This will actually give Otis about 44,000 men. Allowing a loss of 12 per cent for disease, wounds, etc., which he states as the present percentage of "ineffectives," he will have, instead of an effective force of 30,000 men, one of nearly 39,000.

NOTED RIDERS COMING

All the Stars and a Steam Pacing Machine To Be Seen at the Bike Races.

Beyond any doubt one of the features of the race meets throughout the northwest this season will be record breaking by the professional bicycle riders. About twenty professional entries were received by the local club last week, among them being Major Taylor, the wonderful colored rider, and Nat and Tom Butler of Cambridge, Mass., holders of the tandem records. Taylor's manager will bring a steam pacing machine which has done a mile in 1:07 on a straight away course and 1:14 on a well banked track. One of the three \$1,000 races of this kind will be held here.

Natt McDougall of the Milwaukee Athletic club, has entered in the amateur races and is going after everything in sight. McDougall holds all the state amateur championships and will do some of his best riding at the meet. Mayor Harrison's party will arrive at 11:35 a. m. on the Northwestern road and will be composed of the mayor, his private secretary, Edward M. Lahiff, his assistant secretary, Theo. C. Mayer, Lawrence E. McGann, Hon. John Barton Payne, Dr. H. S. Taylor, Jesse Sherwood and Thomas Webb. Accompanying them will be a large delegation of Chicago wheelmen, the Chicago Cycling club, of which the mayor is a member, numbering about 150 members.

Agree to Hold a Conference.

Sharon, Pa., July 3.—The strike among the blast furnace employees at Sharpshooters is far from being settled. No action toward a settlement will be taken until after July 4, when a conference of the operators and strikers will be held. The furnace operators say they will not grant the advance of 20 cents as demanded, and will keep their plants idle until the men are willing to return to work at the old scale. The strikers state that they will not go back to their places until they receive the advance. No Italians have yet been imported.

May Be Revolution in Belgium.

Brussels, July 3.—The situation in Belgium is regarded as extremely grave. Socialists and radicals, composing the opposition, now demand universal suffrage, and will be satisfied with nothing else. All depends on what the government will do on Tuesday. If it fails to bring in a bill granting universal suffrage, it is feared that there will be a revolution, with consequences of a far-reaching character.

Bishop Newman Is Very Ill.

Saratoga, N. Y., July 3.—Bishop John P. Newman of the Methodist Episcopal church, who has been confined to his residence here for several weeks with a form of creeping paralysis, has suffered an attack of pneumonia, and his condition is very critical. Indeed, his death may occur at any moment, as his system is too much exhausted to withstand the pneumonia.

Cleveland Trouble Not Over.

Cleveland, Ohio, July 3.—There are rumors of more trouble among the employees of the Big Consolidated Street Railway company. There may not be another strike, but a meeting of employees has been called for to-day, at which the question whether the company has lived up to its agreements with the strikers will be discussed.

Naval Arsenal Destroyed.

Valparaiso, Chili, July 3.—The naval arsenal at Talcahuano, southern Chili, was destroyed by fire Friday. It is suspected that the fire was of incendiary origin, being set to hide defalcations by government officials. A portion of the ammunition was saved. The loss will amount to \$50,000.

Duke De Arcos Takes a Rest.

Manchester, Mass., July 3.—The duke and duchess de Arcos arrived here Sunday to spend the summer. On the same train arrived the Mexican minister, M. De Azpiroz, his wife and two daughters.

Thomas B. Reed in Germany.

Frankfort-on-Main, July 3.—Ex-Speaker Thomas B. Reed and family are taking the waters at the Schwalbach spa. From Schwalbach Mr. Reed will go to Cologne and Biebrich.

MUST ANSWER TO CHARGE OF MURDER

FRANK HILL ARRESTED AT CRANDON ON SUSPICION.

Former Partner of Charles F. Ball, the Man Murdered at Harshaw—Hempston Murder Case at Manitowoc Will Go to Jury Tuesday—State News in Brief.

Rhineland, Wis., July 3.—Frank, alias "Reddy" Hill, former partner of Charles F. Ball, who was murdered at Harshaw Thursday night, was arrested Saturday night by Sheriff Woodbury of Forest county, on suspicion of being connected with the crime. Hill was a partner of Ball's in the saloon business at Harshaw, but was disliked by Ball, who forced him to retire from the business. It is alleged that Hill told friends of Ball that he would shoot Ball.

Hill was around Harshaw during the day, but left at 6 o'clock. It is thought he returned again and committed the deed. Ernest Day, the man held here as a witness by the state, is supposed to know more of the affair than he is willing to tell.

New Warden at State Prison.

Waupun, Wis., July 3.—Warden McClaughry took the oath of office and succeeded John J. Roberts as warden of the Wisconsin state prison Saturday morning. After posting an order announcing that he was in authority and making verbal announcement that no changes would be made in the official force in the immediate present, he busied himself in looking to the settlement of his family in the state residence. Warden Roberts and family moved yesterday and Warden McClaughry and family arrived last evening.

Of the subordinate appointive offices in the prison but three have been filled for the year and those by the reappointment of Steward Fuss, Prison Physician Messer and Engineer Flint, those having been made some time ago.

State Closes in Hempston Trial.

Manitowoc, Wis., July 3.—The state closed in the Hempston murder trial Saturday. The most important witness was ex-Sheriff Muth. While in conversation with Hempston, after his arrest, he said he asked him "how was it you did not do a good job and kill yourself?" to which Hempston replied: "I tried to." Mr. Muth then said: "What did you kill her for?" He replied: "She came over after her clothes and we went into the front room; we got to quarreling and she called me a liar and I drew my 'pop' and shot her." Mr. Muth considered him sane. Dr. Frazer, who examined Hempston as to his sanity the day after the murder, testified that he found the prisoner rational. The arguments were begun Saturday afternoon and will probably be finished today.

Conference of the Y. W. C. A.

Williams Bay, Wis., July 3.—The conference of the college and city departments of the Y. W. C. A. is a most interesting and important affair. Two hundred and ninety delegates are now present, and thirty or forty more are expected early this week. The entire management of the conference is in the hands of the women, and is conducted in a very orderly and business-like manner.

Full On a Circular Saw.

Oconto, Wis., July 1.—Julius Oepke, a resident of Illinois, fell upon a circular saw in a shingle mill at Gillett. He was cut from the shoulder on the left side to the waist line, through the ribs, exposing the heart and lungs. His recovery is doubtful.

EX-GOV. PECK'S MOTHER IS DEAD

Passed Away at Her Home at Fort Atkinson, Aged 90.

Fort Atkinson, July 3.—Mrs. David B. Peck, mother of ex-Governor George W. Peck, died last evening shortly after 6 o'clock, at her home in this city, at the age of ninety. Old age was the cause.

The funeral will be held from her home tomorrow afternoon at 2 o'clock. The burial will be at Fort Atkinson. Mrs. Peck's maiden name was Joslin. She was born in Jefferson county, N. Y., April 18, 1809; when she came to Wisconsin with her husband and family in 1843, she was also accompanied by her brothers Isaac and Abner Joslin. They settled at Cold Springs, Jefferson county, and later removed to Whitewater, and from there to Fort Atkinson. David Peck, her husband, was a well known citizen of Fort Atkinson. He died while sitting in his old arm chair, about twelve years ago, while his son, ex-Governor Peck, was in California.

SENATORS GATHER AT NARRAGANSETT

MEET TO DISCUSS THE FINANCIAL SITUATION.

Will Organize as a "Senate Committee On Finance" And Make Plans For the Future—Platt, Allison, Burroughs, and Others Are Already on The Ground.

Narragansett, July 3.—[Special]—A number of United States senators arrived here, and more coming in, today, to attend the meet at which the financial situation of the country is to be discussed. They will organize as a senate committee on finance. Among those already here, are Senators Platt, of New York, Allison, of Iowa, and Burrows, of Michigan.

OLD-TIME GAMES WERE GOOD

Present Day Base Ball Players Do No Better Work.

In conversation with one of the old time ball players, the reporter asked how the games of the present day compared with those of years ago. "Well, I'll tell you," he replied. "Twenty-two years ago this summer we played a game that resulted in the same score as the one between Jefferson and our Y. M. C. A. club last week, and we got the short end of it. It was my first taste of a shut-out, and I remember the game well. I never worked harder in my life to secure a run, so I was in a position to properly appreciate the unsuccessful efforts of the Jefferson players to score.

"Our game was at Minneapolis, and the grounds were much larger than those at Spring Brook, thus affording the outfielders a better chance to distinguish themselves. We had in our change battery, but there was not a passed ball or wild pitch in the game, and the only semblance of an error on either side was a fumble by our second baseman which did not affect the score. Yes, we had curve pitchers in those days and they only stood forty-five feet from the home plate, while they are now sixty feet removed. The batting in our game was much heavier than the one here, and several of the hits would have gone over the fence of our home grounds—and there you are. Now, like the Dutchman who went west to seek a new location I'll tell you something you won't believe: Bushong caught the entire season of 1877 without chest protector, mask or gloves, and of course the balance of the nine played barehanded.

A Bystander—"Oh, they didn't put 'em through as swift in those days." "No, they couldn't throw them as swift nor so far, but Joe Doe threw a ball over four hundred feet at Winona—When you hear of any of the up to dates doing that let me know—and Orion Sutherland—well, ask Burham."

Base Ball Notes.

Hastings, of the Wisconsin University team, and Check, formerly of Madison High School, are pitching for the Milwaukee Western League Club.

The Brooklyn, leaders in the League championship race, have been defeated seven out of the last eight games, an illustration of the glorious uncertainty of base ball.

It will be a good idea in the future for some member of the Y. M. C. A. team to designate who shall take the fly balls, and thus avert any possibility of a collision like the one between Palmer and Fisher from which they were lucky to escape with so little injury.

The Cuban Giants and the Chicago Union in their game for the colored championship, drew more people at Evansville, than at any other place except the Sunday games in Chicago. At Oshkosh there was only a baker's dozen in attendance and they did not play the game. The Cuban Giants won the series—eleven to seven games—and have now gone east, opening at Atlantic City tomorrow.

New Royalist Party in Cuba.

Havana, July 3.—La Lucha publishes a statement that a well-known Cuban general, who claims to be a descendant of Charlemagne, is reported to be the head of a new royalist party. The Cuban general in question is said to be dissatisfied with American rule. He thinks that what Cuba needs is not a republic, but a strong hand at the helm like his own. He is of the opinion that the people of the Latin race prefer royalty and the possible honors accruing under a monarchical regime.

Tax Riots Cause Loss of Life.

Barcelona, July 3.—In Badalona, a town of 15,000 inhabitants, five miles from Barcelona, a tax riot Sunday resulted in considerable loss of life. The latest reports from Valencia are to the effect that barricades have been thrown up in the streets and that the citizens are fighting gendarmes and cavalry. Military rule is so strict in Valencia that every shop in town was ordered closed.

The Western Paper Stock Company's Plant Burned and Several People Are Missing.

Chicago, Ill., July 3.—[Special]—The Western Paper stock company's plant was completely destroyed by fire this afternoon.

Over one hundred women were employed in the building.

Seven were badly injured by jumping from the windows.

Four girls and two men are missing and it is believed that they were burned to death.

YELLOW JACK SPREADS

American Troops at Santiago Suffer in Spite of the Removal of the Camps.

Santiago, July 3.—[Special]—New cases of yellow fever continue to develop notwithstanding the removal of the troops from the camp near the former Spanish barracks. Fifteen new cases have been reported during the last three days.

Santiago de Cuba, July 3.—Ten new cases of yellow fever were reported Saturday and five Sunday. This raises the total number of cases to seventy-four. No deaths were reported Sunday. The United States troops have all been removed from the infected camp, but the doctors seem unable to check the progress of the disease among them. The camp, which is on the road to El Morro and in hilly country, was chosen because of its known salubrity and perfect sanitary condition. There are no cases of yellow fever in the city.

Dreyfus' Attorneys Said to Have Reserve Fund.

WILL USE TESTIMONY ONLY IN AN EMERGENCY.

Character of the Revelations Are Such As to Be Likely to Cause Grave Complications—Therefore His Lawyers Hope That No Underhand Influences Will Make It Necessary to Use It in the Defence of Their Client.

Rennes, July 3.—[Special]—Labori and M. Demange, Capt. Dreyfus' lawyers, are hark at work making preparations for the coming court martial. It is said that they are prepared if the court should be influenced against the prisoner by underhand influences, to produce evidence conclusive of the innocence of Capt. Dreyfus, which they would employ in emergency of the gravest character, as the revelations would be such as to cause grave complications.

Visit The Prisoner.

Rennes, July 3.—[Special]—Attorneys Demange and Labori visited Dreyfus this morning. M. Demange had not seen the prisoner since his deportation four years ago. The meeting between the counsel and client was touching. They threw themselves into each others arms and embraced warmly several minutes, not uttering a word. When able to speak, Dreyfus thanked Demange for his devotion. M. Labori witnessed the meeting in silence. Dreyfus, in a voice choked with emotion, expressed gratitude for what Labori had done for him. After the greetings were over, the counsellors gave Dreyfus a general review of what had happened since 1895.

Demange and Labori said Dreyfus' mental and physical condition was much better than they anticipated.

Writes to Picquart.

Rennes, July 3.—[Special]—Captain Dreyfus has learned of what Colonel Picquart did and suffered for him, and asked his brother, Matthew Dreyfus, to-day, to write Col. Picquart in his name expressing his gratitude.

Mme. Dreyfus called on her husband today and took him the uniform he wore on the day of his degradation, on which she had resown the stripes removed. Capt. Dreyfus will re-don the uniform immediately.

Acres of Lumber Destroyed.

Washington, July 3.—Fire, which is thought to have been of incendiary origin, destroyed the large planing mill, lumber sheds and nearly all the lumber in stock of Thomas W. Smith's yard at Fourth and N streets, southeast. Many thousand feet of dry and seasoned lumber were spread out over three or four acres of ground along the river front, and as the wind was blowing at a high rate these were quickly destroyed. Loss about \$50,000, partially insured.

Too Clever by Half.

A Paris manufacturer named Person has just been convicted of selling canned horseflesh as potted duck, hare, etc. He said like Sam Weller's friend, that it was "all in the seasoning" and that he could make horse juto duck or hare according as tastes differed. The letters on the cans, "M. T." meant not "Mention honorable," as purchasers had supposed, but "Mellange hippologique." The judge gave Mr. Person eight months.

BIBLE'S INFLUENCE ON THE NATIONS

HOLY WRIT IS A GREAT SOURCE
OF PATRIOTISM.

Rev. Mr. Kempton Says That the Good
Book Inspired Many Great Men,
And Uplifted Many Peoples—Rev.
Walter A. Hall Talks Entertaining-
ly of "An American Watchword."

A goodly congregation greeted Pastor
Kempton yesterday at the Baptist
church. His sermon was appropriate
for the occasion. The subject was:
"The Bible and the Nation." The text
was in Psalm 78-1.

Dr. Parkhurst once said that he was
not so much interested in the people
who made the bible as he was in the
people which the bible had made.

There are four great corner stones to a
nation: patriotism, freedom, industry and
homes.

The bible has been a great source of
patriotism. It taught the Jew to love
his native land. The bible has inspired
the patriotism of Switzerland, Scotland,
England and all of the patriotic lands
of the earth. Nearly all of the great
patriots of earth were those who loved
and studied God's holy word.

Wherever God's word has been loved
and revered you will find that liberty
has followed. The bible has been the
most powerful weapon to bring liberty
of body, as well as conscience, to those
who are in slavery.

The poet as well as the statesman
was inspired by the bible to help in
freeing men from bondage. General
Grant declared that the bible was the
sheet anchor of our nation.

The bible also blesses a nation by in-
culcating industry. Send the bible into
a heathen land and industry will fol-
low. Business will be established and
great progress and thrift will be the
result.

The chief corner stone of a nation is
its homes, and the bible not only el-
evates the homes where it enters, but it
is the very author of the home. It
sanctifies and elevates a beautiful hom-
e, which will build up Christian character
more than any other influence of earth.

The Christian home is the greatest
source of patriotism and liberty, and
may God help us to love the bible, and
may its sweet influence be felt in all the
hearts who shall so soon celebrate our
national independence.

There was a union service in the eve-
ning. Rev. Mr. Woodside delivered the
sermon.

TALKS OF AMERICAN WATCHWORD

Rev. Walter A. Hall Speaks of the Motto
of the Badger State.

Rev. Walter Hall spoke to a large au-
dience yesterday. The church was beau-
tifully decorated. The theme was "An
American Watchword."

We append some extracts:

The coat of arms of the state of Wis-
consin has but one word, but that word
is profoundly significant. It is "For-
ward." This idea is intensely American.
Forward, not backward, not dead still,
but forward. Your eyes are in front of
your head. Why? That is the way God
intended you to go. A young man has
been struck and paralyzed by his first
great disappointment. The great world
of his desire was a beautiful apple. He
had but to reach up and take and eat.
So he thought. The reality, how differ-
ent. He had this to learn, that the truly
worth while is never reached from the
ground. Life is not smooth romance. It
is rugged reality. Only babies are car-
ried.

Mr. Hall here spoke of the young
man looking at a bright bronze figure,
the water playing about it in jets and
sprays and rainbows, and saying:

"That figure yonder, the center of
that bright pond, and splendor-caressed,
is better off than I."

But he thinks, he plans, he
can begin over again. He can
grow. Not so the bronze. Thank
God, friends, that up is always wide
open, an is always there. Your hori-
zons bound is never reached. God's
planning is infinite. There will be in
that planning for evermore for you, a
beyond. Christianity is not a standing
still; it is an everlasting becoming. you
are by all you have been. You will be
and do by all you are and do. In
speaking of "Forgetting the Things
that are Behind," Mr. Hall said there
was danger that we dwell only in
the past. Lot, his wife and
two daughters are fleeing from Sodom.
Fire is to fall, but as yet the sky is ser-
ene blue; the wicked city stands out on
her vision, radiantly beautiful. She
longs for old Sodom. Then their comes
a stiffening, a deadness, a darkness, and
there she stands not a vigorous woman,
but a pillar of salt. How many Chris-
tians looking back longingly have been
struck stone dead. Not dead to the
world, but dead to duty, dead to the
church; dead to God. The boat that
does not leave Liverpool will never
reach New York. The soul that does
not leave the world will never reach
heaven. Leave these behind things and
and press forward, keeping the goal and
prize in view, and striving to reach and
obtain them, for whatever may be said
to the contrary, the infinite heaven of
the infinite God is certainly worth striv-
ing for, and character wealth is worth
while. Chase not the bubbles of earth
that burst in the grasping but reach
after everlasting rainbows. The only
colors that wash are celestial.

Grain-O Brings Relief

to the coffee drinker. Coffee drinking is a habit
that is universally indulged in and almost
universally injurious. Have you tried Grain-
O? It is almost like coffee, but the effects are
just the opposite. Coffee upsets the heart and
disrupts the digestion, affects the heart and
disrupts the whole nervous system. Grain-O
is a perfect substitute for coffee. It is a perfect
nourishment in Grain-O. It can't be otherwise
than 15 and 25c per package.

SCHALLER PLAYS GOOD GOLF

Janesville Friends Hope to See Him
Qualify at Lake Forest.

The fifth annual championship com-
petition of the United States Golf as-
sociation began at Lake Forest, Chicago,
this morning with one hundred and
twelve contestants. Al Schaller of this
city, is in this list having for a playing
partner P. D. Frazier. It is expected
that at least ninety players will tee off
in the qualifying round.

When the score cards are figured up
tonight thirty-two of the most skillful
contestants will be declared eligible for
the match play tomorrow. Schaller has
put up a fine game so far and it is hoped
by his local admirers that he may qual-
ify for the final match.

COHEN'S HEARING POSTPONED

He Fails to Secure the Necessary Eight
Hundred Dollars Bail.

Isadore Cohen, who is in jail here on
the charge of obtaining \$200 from the
Hamburg-Bremen Fire Insurance com-
pany of Germany under false pretenses,
was before Judge Fifield late Saturday
afternoon. Cohen asked for a postpone-
ment of the case so that he might be
able to secure an attorney. The case
was then adjourned till Monday, July
10th, and in default of \$800 the defend-
ant was remanded to jail.

will act as superintendent of the White-
water city schools when the fall term
opens.

Persons troubled with diarrhoea will
be interested in the experience of Mr.
W. M. Bush, clerk of Hotel Dorrance,
Providence, R. I. He says: "For
several years I have been a constant
sufferer from diarrhoea, the frequent at-
tacks completely prostrating me and
rendering me unfit for my duties at this
hotel. About two years ago a traveling
salesman kindly gave me a small bottle
of Chamberlain's Colic, Cholera and
Diarrhoea Remedy. Much to my sur-
prise and delight its effects were im-
mediate. Whenever I felt symptoms of
the disease I would fortify myself
against the attack with a few doses of
this valuable remedy. The result has
been very satisfactory and almost com-
plete relief from the affliction." For sale

TO BUY THE LAKES OF KILLARNEY

How It Happens That the Property Is on the Market.

BY JOHN F. WILLOUGHBY.

The proposal of certain wealthy Irish-Americans, members of New York's Tammany Hall, to buy a section of the Killarney lakes country and throw it open to the people of Ireland as a free park has excited considerable comment and revived popular interest in this picturesque bit of the Emerald Isle.

It is incorrect to state that the lakes of Killarney are on the market. Along the shores of the gemlike chain of lakes are two lordly estates. One of these is owned by the Earl of Kenmare, who certainly has no intention of parting with any portion of his ancestral home.

The other estate is owned by Captain Herbert Muckross, and it is this section of the Killarney country which is said to be at the disposal of the highest bidder. A Scotch fire insurance company holds a big mortgage on the property, and it is supposed that the captain is tired of paying interest.

The Lakes of Killarney lie in an oval formed by the Kerry mountains and are three in number. Numerous islands dot the lakes. Every island has its legend, its saint buried in some picturesque nook, its ruined castle or abbey. These islands are referred to by an Irish enthusiast in these words:

"They are like large baskets of flowers floating on the clear, silent waters whose peace is only broken now and then by the jumping of a fish or the clucking of some stray teal. You think you have landed in fairyland, outside the pale of ordinary life."

The two parks are marvels of beauty, and tourists think a trip to Ireland incomplete unless the parks, with their islands, bays, peninsulas, brooks and foaming cascades, have been visited.

The park on the west side, owned by the Earl of Kenmare, has Ross island, St. Finian's tomb, Innisfallen and the ruins of O'Donoghue's castle and many natural and architectural wonders.

The opposite side has about 16,000 acres, in which are the ruins of Muck-

BRICEEN BRIDGE, KILLARNEY.

ross abbey, the Torc cascade, Briceen bridge and a part of the Torc (pronounced Turk) mountain.

The show spot of the park is Muckross abbey on the lower lake, about three miles from Killarney town. The ruins are those of a church and abbey founded in 1440 and partly restored in 1602. Among the ancient tombs in the abbey are those of the McCarthys, O'Donoghue-Mor and the O'Sullivans. The east window is one of the features of the well preserved ruin and has been described as one of the most beautiful specimens of that class of work in Europe. From the upper parts of the ruin there is a good view of the lower and a part of the middle lake.

One of the beautiful spots in the park is a narrow gorge between the upper and the middle lakes, which is spanned by Briceen bridge. This is one of the spots which all tourists look for when visiting the lakes, not because of the architectural beauty of the little span, but to see the quiet, restful picture of which it is a part.

A "crosscut" through the grounds of Muckross abbey to the highway leads to the Torc cascade. Here the water tumbles over a broken ledge 60 feet into a rocky basin. A well kept path leads to the ledge whence the water falls, and from there one has a fine view of the lower and middle lakes.

These are only a few of the beautiful and attractive features of the property which Tammany hopes to acquire and present to her uninitiated members in Ireland. The place has been described as "a compendium of Ireland; all the characteristic features of the country are united there; the elegant round towers drawing on the horizon the airy outlines of their conic shafts; the soft moistures of the atmosphere; the tender blue of the sky; the intense green of the meadows, set off by long, black trails of peat; and the white, ocher and red streaks which the grit stone and clay slate draw in the hillside."

The highest mountain in Ireland is in the neighborhood, the summit of Carrauntal being only 15 miles from the town of Killarney.

"We will buy the property," said a prominent Tammany man, in speaking of the Muckross estate, "and present it to the people of Ireland as a pleasure park. At the present time it is open only two days every week, and tourists must pay 1 shilling to enter Muckross abbey. We want to make it free at all times. Tourists will be attracted to the place, the people of Ireland will derive pecuniary benefit, and the beauties of the country will become better known."

PINGREE WRITES TO ALGER.

Michigan Governor Denies He Has Said Things Attributed to Him.

Detroit, Mich., July 3.—Gov. Pingree has dispatched a letter to Secretary Alger, brought out by criticisms made by the secretary and the numerous comments recently published concerning the agreement made by the governor to support Secretary Alger in his campaign for the United States senatorship. The letter is in part as follows:

"I have at different times expressed my opinion of the necessity for the war in the Philippines. I have, in common with thousands of others in the country, disapproved of it, and have had no hesitation in giving my views whenever I have been asked for them. I voted for McKinley, and I have had no cause whatever to regret it. If he is a candidate again I will take pleasure in giving him my support."

"I am well satisfied that the attack upon the war department is nothing but a cunningly conceived plot to create a vacancy to be filled by a New York politician."

"In so far as the alleged 'alliance' with you is concerned, I can freely and frankly say that none has been made. As you are already aware, I simply proffered you my support in your candidacy for United States senator, and only wanted to know whether you were in favor of an amendment to the constitution of the United States permitting the election of United States senators by direct vote of the people. I was glad to be advised by you that you favored the restriction of 'trusts,' but neither of these things was made the condition of my support. In common with thousands of other Michigan people, I merely offered to assist you."

"Even more absurd is the statement made by the press that I am an avowed candidate for the republican nomination for president at the next national convention; that you have made an alliance with me, and that therefore you have practically declared your opposition to President McKinley, and should retire from his cabinet. Of course such a statement is too silly to be entitled to serious attention. It is sufficient to say to you that I have not, and never did, entertain the remotest intention of becoming a candidate for the presidency."

WINE OF CARDUI

A SURE MEDICINE.

HANDSON, Pa., Dec. 31.

I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

Wine of Cardui

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the female organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

THIS DAY IN HISTORY.

1778—Tories and Indians massacred 300 Americans at Wyoming, Pa.
1815—Mrs. Jordan, actress and mother of the ten children of William IV, died in obscurity at St. Cloud, France; born in Ireland 1782.
1871—Rome declared capital of Italy with imposing ceremonies. Rome had been the capital of ancient Italy and ultimately of the Roman empire. After the downfall of the western empire it dwindled to a city of 13,000 inhabitants. Under the popes it was restored and enlarged, but many periods of war and turbulence checked its development.
1892—Tornadoes, floods and widespread drought wrought terrible destruction in six western states.
1898—Cervera's Spanish squadron destroyed by the American fleet under Sampson and Schley after escaping from Santiago harbor. General Shafter demanded the surrender of Santiago.

ENDORSES AMERICAN RULE.

Havana people are rapidly coming to a realization of the benefits of the American system of government. In an editorial, La Patria, the best newspaper published at the Cuban capital says:

"If any shadow of doubt could remain as to the absolutely imperious necessity of the expulsion of the old Spanish regime in order that Cuba might have true liberty and progress it must vanish when one analyzes the series of phenomena developed before our sight day by day. We are eliminating traditional impediments and getting rid of the apparently impassable obstacles which four centuries of evil training in political administration had thrown in our path. Formerly there was agitation among the people; oceans of ink and tons of paper were used; floods of oratory were poured out, and then everything ended at Madrid in the froth of Spanish promises. On the other hand, in these days of fruitful though silent work, we learn of the most radical reforms when they are published in the Official Gazette without being preceded by a magnificent conglomeration of oratory and colored fire. An order of six lines, with a very short preamble, will represent some bold and beneficent measure. I might say that for us a thin sheet of paper separates the medieval world from the nineteenth century, and oftentimes the writing is not indispensable to enable us to pass from darkness to light."

In closing the paper explains that the Americans have worked this change in the face of great difficulties, and "through this a thousand enormities have been effaced."

La Patria represents the sentiment of the best people of Havana, which fact makes the cordial endorsement of American methods all the more pleasing.

Option deals will not hold good in Iowa hereafter, the supreme court of that state having ruled on the point as follows: "Any purchase of property not intended to be actually delivered, or in which the settlement is to be paid by paying the difference between the market values at the time of the deal and the time of settlement, is gambling; and debts thus incurred cannot be enforced at law."

The fact that the window glass trust recently formed, will control 93 per cent of the productive facilities of the United States is painfully apparent.

And tomorrow is the glorious Fourth—the most glorious that Janesville has seen in many a day.

WITH THE HUMORIST.

"That was a queer dying request made by the famous Mr. Burkins."

"What was it?"

"He said if a bronze statue was ever made of him he wanted his tailor to model the trousers."—Chicago Record.

"That's where you're off, my son," said Tufford Knutt, answering the rich remark of a boy on the sidewalk. "No, sir. The wind don't blow through my whiskers. It can't. I never comb 'em."—Chicago Tribune.

"He intends to take up literature now."

"Is he well qualified for it?"

"Well, I should say so. Why, he's done everything except learn how to write."—Chicago Post.

Miss Sprickets—Are you sure you love me for myself more than for my wealth and real estate possessions?

Mr. Wheeler—Of course I am. Why, I love you more than the ground you bide over.—Chicago Daily News.

Innett—How is your suit with Miss Rockford progressing?

Woodby—Oh, that's off long ago. I got it in the solar plexus.

Innett—She handled you without gloves, eh?

Woodby—Yes; but I got the mitten just the same.—Chicago Daily News.

Good Man—Do you know where little boys go that smoke cigarettes?

Bad Boy—Yep! They goes out in de woodshed.—Chicago Daily News.

"But you surely want to go to heaven, don't you, Tommy?"

"Yes'm, but not till I've licked Bud McGinnis fur cheatin' me when we was shootin' craps th' other day!"—Chicago Tribune.

The Queen of Portugal, who takes a great interest in the hospitals of her country, is a great enemy to tight lacing; and has always preached to the ladies of her court against this evil habit. Tight lacing in Portugal, owing to the efforts of the queen, is said to be now on the decrease.

Honest Folks in Sweden.

In certain parts of Sweden, where the most absolute confidence is reposed in the honesty of the people, a very informal postal system is in vogue. As the mail steamer reaches a landing-place a man goes ashore with the letters, which he places in an unlocked box on the pier. Then the passer-by who expects a letter opens the box, turns over the letters and selects his own, unquestioned by anyone.

Tenacious French Prisoners.

A correspondent writes from Lausanne that the district of Lavaux, situated between Lausanne and Vevey, and having a population of 10,000, is at this moment in the proud position of being able to boast that in the several prisons in the district there is not a prisoner. A white flag floats over every prison in token of this praiseworthy fact, and virtue reigns supreme in the canton of Vaud.

What It Really Was.

"So you have your labor troubles here, also," said the North American who was temporarily a visitor to one of the South American republics.

"Labor troubles!" cried the native, drawing himself up proudly and speaking with every evidence of excitement.

"We have no labor troubles. Where did you get that idea? Who told you that we had any trouble about labor?"

"Oh, no one," replied the visitor. "I drew my own conclusions. I saw some rioting and supposed—"

"Rioting!" exclaimed the native. "Rioting! Sir, I would have you to understand that this is a revolution."

"Oh!" said the man from the north. It was really all that he could say without giving offense. There is such a difference in localities.—Chicago Post.

A Widow's Eccentricities.

A lady in deep mourning some time ago called upon the proprietor of a Sydney wax works show and asked to be allowed every Sunday morning to place a clean white shirt on the figure of her husband (who had been hanged for murder). Her request was granted, and for close on six months she never missed a Sunday. Then the visits ceased and no more was seen of the eccentric visitor, until one day the wax works man was standing at his door, when she came along in gay apparel, and explained that, as she had married again, hubby No. 2 objected to the little hebdomadal ceremony over No. 1.

Butterflies.

Every one has seen the little yellow butterflies that settle down in swarms upon the country roads in the summer time, but very few of our little friends know in what great families they travel nor what great distances they go. Flocks of them have been seen fluttering overhead, all going in the same direction, that covered 16 miles and took three days in passing, and they have been seen far out at sea, where they fairly cover the decks and rigging of the ships.

JUVENILE TRAMP ARRESTED.

But Fourteen Years of Age and Lived at Ontario, Canada.

Willie Fitzgerald, aged fourteen years, was placed under arrest yesterday afternoon by Sheriff Appleby on the charge of being a vagrant. Fitzgerald says that his home is in Ontario, Canada, and that for the past five years he has been traveling about the country. He has had no trouble in making his way on trains and that the railroad men have always been kind to him on account of his tender years. What to do with the prisoner is a question.

Born in a Cabin.

Miss Virginia Fair, who is soon to wed William K. Vanderbilt, Jr., was born in a rough two-story wooden shanty in Virginia City, Nev., where her father was a hard-working miner. The Fair children played with the other miners' children and showed slight promise of future prosperity.

Czar's Whim.

The czar has had his special den in the St. Petersburg palace papered with cartoons relating to himself, including a great many caricatures of the most ridiculous sort. If he was a Tammany politician he would have a real chance.

Starting the Baby Up.

In Germany it is considered necessary that a child should "go up" before it goes down in the world, so it is carried upstairs as soon as born. In case there is no upstairs, the nurse mounts a table or chair with the infant.

Indians in the United States.

The Indian population of the United States is 248,340. In 1492 they were lords of the whole country; now they have reserved for them 114,486 square miles.

EDWARD L. DIMOCK IS CALLED HOME

DEMISE OCCURRED THIS MORNING OF PARALYSIS.

Was the First Secretary of the Northwestern Mutual Life Insurance Company of Milwaukee, and the Second Mayor of Janesville—James Campion No More.

Edward L. Dimock, first secretary of the Northwestern Life Insurance company of Milwaukee, and second mayor of Janesville, died this morning at the home of his son-in-law, Mayor Victor P. Richardson, corner of St. Lawrence Place and Sinclair street, aged eighty years, the cause of his demise being the infirmities of age.

For several weeks past Mr. Dimock has been in poor health, and of late has been confined to his bed.

During the past four days his condition grew gradually worse, and a portion of the time he was in an unconscious state, being unable to recognize those about him.

This morning the end came, and he passed peacefully away.

Edward L. Dimock was born in Genesee Co., New York, Oct. 13, 1819, his parents being natives of Tolland County, Connecticut, the family being of Scotch descent. Mr. Dimock lived on the parental farm until his fourteenth year, when he went to Rochester. The next two years found him employed in a dry goods store, and at the end of that time he went to Batavia, where he remained ten years. His next business engagement was at Buffalo. While in this city he decided to come west, and in June, 1845, he came to Janesville. On his arrival in Janesville he engaged in the mercantile business, continuing it for six years. He then turned his attention to banking, and was for a time president of the Badger State bank. In 1858 he left banking to engage in the insurance business which has been his calling since.

In the spring of 1854 he was elected alderman of the Second ward, and in 1855 was elected mayor, being the second mayor of the Bower city. He had also held other city offices.

He was for five years a director of the Milwaukee & Mississippi railway—now the Chicago, Milwaukee & St. Paul system. He was also a stockholder, and for four years ending in 1861, the lessee of the Janesville gas works, in connection with Timothy Jackman. He was also a charter member and the first secretary of the Northwestern Mutual Life Insurance company of Milwaukee.

Mr. Dimock was married in October 30, 1851, to Miss Emma C. Hanks, daughter of Col. and Mrs. L. B. Hanks, for many years a prominent business man of Hartford, Conn. To them five children were born, four of whom died in infancy, leaving an only surviving daughter, Mary Emma Dimock, wife of Mayor Victor P. Richardson.

Mrs. Dimock died in 1880, and some years later Mr. Dimock was married to Miss Maria Clark of Detroit.

Mr. Dimock was a public spirited man and being one of the early settlers of the city he had always taken a deep interest in the welfare. He was instrumental in bringing about many changes for the betterment of the city and his worth has always been recognized by his fellow citizens.

Mr. Dimock was a lover of flowers, and had cultivated some rare specimens, devoting himself to the flower culture as long as he was able. He was also very fond of children, and enjoyed their society.

James Campion

Another pioneer of Rock county has closed his eyes to things material and joined the great majority in the unknown beyond. Saturday evening at half after 6 o'clock, James Campion passed peacefully into the shadows at his home in the town of Harmony, aged seventy-four years.

Mr. Campion had been a resident of the county for fifty-one years. He was born in Kilkenny, Ireland, May 18th, 1825 and he came to America in 1848, coming direct to Rock county and settling on the farm in the town of Harmony, where he has ever since resided. He was a thorough gentleman and commanded the respect of all who knew him. His death will be sincerely mourned by a large circle of friends. He was one of the founders of St. Mary's church, of this city, and was its honored treasurer up to the time of his death. He was a farmer by occupation.

Besides a widow, Mr. Campion leaves eight children, five sons and three daughters: John, Edward, James, Michael, Lawrence, Miss Anna Campion, Mrs. Mary McBride and Miss Nellie Campion, all of the town of Harmony.

The funeral will be held at 9:30 Tuesday morning at St. Mary's church and solemn high mass will be sung.

T. L. Hollister.

Funeral services over the remains of the late T. L. Hollister were held from his late residence, in the town of Rock, five and one-half miles south of the city, yesterday afternoon at 2 o'clock. Rev. R. C. Denison of the Congregational church, officiated, and the interment was in Oak Hill cemetery.

Pension Notice.

Comrades! You will find me at G. A. R. rooms, over First National bank, July 4, at 6 a. m. to 4 p. m. D. Conger.

Co. A. Attention!

All members who did not attend the meeting Sunday noon are requested to try and make it convenient to be at Spellman's cigar store at 7 sharp to-night.

LATE NEWS BY TELEGRAPH.

MILES OF FLOODS IN TEXAS.

Reports of Loss of Life and Property Are Confirmed.

LOSS IS IN THE MILLIONS.

Situation in the Central and Southern Part of the State Is Most Distressing—Seventy or More Are Drowned—Bridges Washed Away.

Austin, Texas, July 3.—The distressing situation in the extensive flooded districts of central and southern Texas is growing worse. There has been an average of twenty hours' heavy, continuous rain, which has added to the already accented volume of water in the rivers and creeks of the richest agricultural region in the state. There seems to be no end to the rainfall.

The sea of water now extends from the north central part of the state to the gulf, a distance of 300 miles or more, and with an average width of probably seventy-five miles. The great flood began nearly a week ago, and the suffering of the people in the localities that are surrounded and cut off from communication with the outside world must be severe.

Every possible effort is being made to rescue the unfortunate men, women and children thus situated, and all day Sunday rescuers plied the turbulent waters in improvised boats and rafts, picking up the stranded people and conveying them to higher land. Railroad officials can do nothing with their paralyzed facilities to improve the situation.

More costly bridges are reported to have been swept away, among them being that of the Missouri, Kansas & Texas road over Little river.

All traffic over that division is suspended. Freight and passenger business is at a standstill, and in addition to the actual losses by washouts, the daily loss of earnings aggregates an enormous sum.

Arrivals from Chappell Hill say that scores of houses have passed down the Brazos river near there. Judging from the number of residences in the river, there must have been much destruction of property at points above there. It is still impossible to verify at this time the numerous reports of loss of life in the bottoms of the Brazos and its tributaries.

The earlier reports of loss of life in Robertson county, caused by a meeting of the waters of the Brazos and Little Brazos rivers, have been confirmed. The information received from Calvert, which is in the midst of the scene of destruction, is meager, but it is to the effect that more than seventy people are missing. Nine bodies have been recovered.

The floods of the two rivers came up so suddenly that the negroes living between the watercourses had no opportunity of escaping. They were caught in a trap and drowned.

N. R. Bagley, a commission man of Kansas City, arrived here Sunday direct from the flooded region of Devitt and adjoining counties. He said:

"No one would believe the extent and terrible effects of the flood in Walker and other counties in the Colorado and Brazos valleys unless he had seen the thing for himself. I cannot describe it better than to say that the whole country is under water. I saw hundreds of horses and cattle standing in fields with the water up to their necks. Many miles of railroads are under water and in some places an effort is being made to run local passenger trains with water covering the track to a depth of nearly three feet. It is not only the Colorado and Brazos that are indicating damage, but small streams are also flooding the country."

It is estimated that more than 2,000 wagon bridges have been washed away in the counties composing the flooded district. The loss from this source alone is very heavy. In some counties as many as 200 bridges are gone. The Bosque is the latest river to get on a rampage. A telephone message was received here from Walnut Springs saying that stream was out of its banks and thousands of acres of shocked wheat had been swept away. It has also washed away several miles of track of the Houston and Texas Central road, as well as two bridges near Walnut Springs.

It is roughly estimated that the floods have caused loss to crops and railroad property to the amount of \$4,500,000. When the waters subside it may be found that the loss will exceed the present estimate by many hundred thousands of dollars.

Thinks He Knows the Bandits. Helena, Mont., July 3.—John Grant, United States marshal of Texas, telegraphed Marshal Woolman that he believed, from what Deputy Marshal Melkeljohn had wired him about the two Dillon suspected train robbers, that they were Bud Nolan and Dave Putty, two desperadoes, and that they were certainly part of the gang that held up the Union Pacific train.

"I have used Chamberlain's Cough Remedy in my family for years and always with good results," says Mr. W. R. Cooper of El Rio, Cal. "For small children we find it especially effective." For sale by People's Drug Co.

AMERICAN MERCHANT MARINE.

Home Shipyards Present the Best Showing Made for Many Years.

Washington, July 3.—The fiscal year which ended on Friday was exceptional for the American merchant marine in several respects. Full reports will not be received by the bureau of navigation for several weeks.

The total output of American shipyards has been the largest of any year for the last quarter of a century, except 1891, when 1,384 vessels of 369,302 gross tons were built and documented in the United States. During the last fiscal year the construction of merchant vessels, officially returned, has consisted of 1,420 vessels of 320,379 gross tons. Besides these twenty-two vessels of foreign construction, aggregating 30,181 gross tons, have been admitted to American registry. It is also reported from Manila that since last August 141 vessels have been transferred from the hands of Spanish, German and British subjects to Americans, indicating the confidence of the business men of Manila in American government.

WILL MEET IN CHICAGO IN JULY

Session of the Democratic National Committee to Be Held July 20.

St. Louis, Mo., July 3.—The Democratic national committee will meet in the Sherman house, Chicago, Thursday, July 20. Notice of the call was issued Sunday by Acting Secretary J. G. Johnson of Kansas, who was instructed by Chairman J. K. Jones, through Gov. Stone of Missouri, to summon the committeemen together.

The object of the conference, as stated in the formal notice sent to the committee, is "to consider matters relating to party organization and other questions pending of importance to the party."

Whitney Confession Doubtful.

Indianapolis, Ind., July 3.—The state authorities do not take much stock in the alleged confession of "Kid" Whitney, an inmate of the state reformatory, that he, Noah Baney and a third man unnamed, murdered the wife of the Rev. William E. Hinshaw at Belleville in January, 1895. The affidavit made by Whitney is now in the possession of J. O. Parker of Evansville, one of the minister's attorneys, and it will be brought here for inspection by the governor. The minister's attorneys say they do not intend to ask for a pardon for him at this time. No request in his behalf will be made, they say, until it has been clearly demonstrated that he is innocent of the crime for which he is serving a life sentence.

Volunteers En Route Home.

Washington, July 3.—The Nebraska, Pennsylvania and Utah troops which have been on duty in the Philippines have started homeward. The following dispatch from Gen. Otis on the subject was received by the war department Sunday:

"Manila, July 2, 1899.—Transports Hancock and Senator, with Nebraska, Pennsylvania, Utah, left for San Francisco yesterday. Nebraska, 42 officers, 812 enlisted; Pennsylvania, 34 officers, 712 enlisted; Utah, 9 officers, 258 enlisted. Nebraska left in Manila one sick—Private Leuterman, company H—30 discharged; Pennsylvania, 7 discharged; Utah, 29 discharged."

Alger Remains Silent.

Washington, July 3.—The publication of a story from Detroit that Gen. Horace Porter, ambassador at Paris, had been tendered the war portfolio in succession to Secretary Alger revived the gossip that Secretary Alger would retire from the cabinet. Inquiry in official quarters failed to confirm the report, which was first circulated some time ago, and was then denied. Several officials said they had reason to believe that it was untrue. All Secretary Alger would say was: "I decline to discuss such reports further."

Disastrous Fire in a Mine.

Lethbridge, N. W. T., July 3.—A disastrous fire occurred here Saturday in the mines of the Galt Coal company, which will result in the throwing of 300 men out of employment for fully a month, besides entailing a heavy property loss. It is not known just how the fire originated, but it is supposed to have been caused from an overheated bearing in the fanhouse, where the fire was discovered. It was necessary to flood the mines to prevent the progress of the flames.

Tanner Departs the Negroes.

Pana, Ill., July 3.—Of the entire importation during the last ten months of 1,000 or more negroes to Pana by the coal mine operators to supplant the locked-out union miners not one remains. The last of the colony departed Saturday night on transportation furnished by order of Gov. Tanner from the state contingent fund.

Fleet Will Not Meet Dewey.

Washington, July 3.—Secretary Long said last evening that there was no truth in the story sent out from Newport that Rear Admiral Sampson's squadron would be sent to the Azores to meet the Olympia, with Admiral Dewey on board, and escort the admiral and his flagship to New York.

Disastrous Fire at Summit.

New York, July 3.—An incendiary fire at Summit, N. J., Sunday did \$150,000 damage. The fire was discovered at 3 o'clock in the morning in a barn in the rear of a house owned by V. Vi-carri, in Union avenue. The fire communicated to a frame building some distance away, and then destroyed about ten similar buildings adjoining, which were occupied as stores and dwelling houses. The fire got beyond control, and within a short time the Agate block of five buildings, in Union avenue, owned by William C. Sheldon, were in flames. They, too, were entirely destroyed. About 100 persons who lived in the apartments over the stores were driven to the street, and saved practically nothing.

Mrs. McKinley Is Improving.

Washington, July 3.—Mrs. McKinley is reported to be better. The pleasant weather is having a beneficial effect upon her.

Mrs. Col. Richardson Saved by Mrs. Pinkham.

[LETTER TO MRS. PINKHAM NO. 72,896]

"You have saved my life, snatched me from the brink of the grave almost, and I wish to thank you. About eighteen months ago I was a total wreck, physically. I had been troubled with leucorrhoea for some time, but had given hardly any attention to the trouble."

"At last inflammation of the womb and ovaries resulted and then I suffered agonies, had to give up my profession (musician and piano player), was confined to my bed and life became a terrible cross. My husband summoned the best physicians, but their benefit was but temporary at best. I believe I should have contracted the morphine habit under their care, if my common sense had not intervened."

"One day my husband noticed the advertisement of your remedies and immediately bought me a full trial. Soon the pain in my ovaries was gone. I am now well, strong and robust, walk, ride a wheel, and feel like a girl in her teens. I would not be without Lydia E. Pinkham's Vegetable Compound; it is like water of life to me. I am very grateful and sincerely your well-wisher, and I heartily recommend your remedies. I hope some poor creature may be helped to health by reading my story."—MRS. COL. E. P. RICHARDSON, RHINELANDER, WIS.

QUEEN OF BEAUTY.

Parisian Actress Selected as the
Fairer Woman in the World.
According to a solemn and dignified
French jury, the most beautiful woman
in the world is Jeanne Dortal, a
Parisian vaudeville artist who, until
pronounced to be the queen of beauty,
was almost wholly unknown to fame.
To the French such competitions as
this beauty contest are wholly serious.
We Americans don't think much of
them. Almost every male American
has his own ideas as to who is the

JEANNE DORTAL.

most beautiful woman in the world,
and the verdict of half a dozen juries
would not change his opinion. But the
French seem to think that beauty can
be measured as if it was an exact
quality.

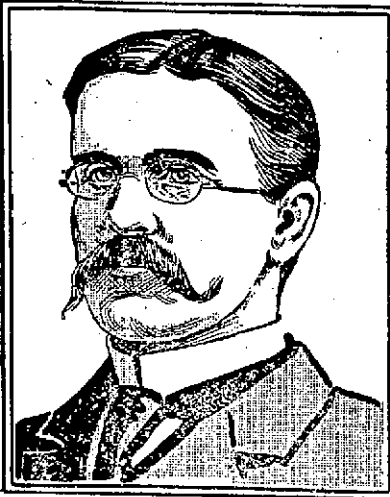

The jury which selected Mlle. Dortal
as the fairest of her sex was com-
posed as follows: Henner and Besnard,
painters; Rodin and Falguiere, sculp-
tors; Catulle Mendes, author and critic;
Pedro Gailhard, director of the opera;
Jules Cheret, the genius who designs
posters; Sarah Bernhardt, actress;
Doucet and Redfern, the man millin-
ers. The points considered in mak-
ing the award were form, color, fea-
ture, soul, expression, dignity, car-
riage. The jury was unanimous in
the judgment that Mlle. Dortal is the
beauty of beauties.

SCHOLAR AND ATHLETE.

Benjamin
Ide Wheeler,
the newly
elected presi-
dent of Cal-
ifornia State
university, is
at the same
time one of the most distinguished
philologists in the country and one of
the recognized authorities on college
athletics. He has written several
books. They are not of the kind usual-
ly sold on trains. One is entitled "The
Greek Noun Accent" and the other is
"The History of Language."

Professor Wheeler is not only a dis-
tinguished scholar, but a man of great
executive ability. More than that, he
is full of everyday human interests,
which bring him into close sympathy
with the students of the institution
with which he is connected and enable
him to exercise a great influence over
them. Brown university talked of him
as successor to E. Benjamin Andrews
in the presidency and several other
eastern institutions have recently tried
to secure his services.

Professor Wheeler is still a compara-
tively young man, although he has
gained much fame. His specialty is
Greek, and he served for several years
as instructor in the classical school at
Athens before going to Cornell. A re-

PROFESSOR BENJAMIN IDE WHEELER.
cent history of Alexander the Great,
written by him, has attracted much at-
tention.

Among college students the professor
is perhaps most admired for his good
sense in matters pertaining to college
athletics. He is Greek through and
through, and believes in athletics of
the old Greek type. He condemns
gymnasium athletics and encourages
all outdoor forms which lead them-
selves to the freest development of
the body and which have the best effect
on character. Games open to all corners,
with free field and no favors, and lau-
rels to the victors, are what he aspires
toward. It was largely due to Pro-
fessor Wheeler's influence that Cornell
took her sportsmanlike stand in her ne-
gotiations with Yale and Harvard con-
cerning the great annual college boat
races.

Socialism In Spain.

Socialism, it is said, is making rapid
headway in Spain, and chiefly among
the educated classes. During the re-
cent elections in that country Socialis-
candidates received such support in
Madrid, Bilbao and elsewhere that the
government was forced to tamper with
the electoral figures to prevent them
from being proclaimed as elected to
the cortes.

One Thing Needful.

Before the fatted calf is killed, how-
ever, Senator Peffer must give the
prime token of Populist repentance--
the visible evidence of complete re-
nunciation. He must have his whis-
kers cut.--Kansas City Journal.

Johnny--Paw, gimme a nickel?
Father--What for?
Johnny--I want to put it in a slot ma-
chine and see if I can't get a dollar.
Father--And what will you do with
the dollar?
Johnny--Buy a ticket in a raffle for a
bicycle.

The Flies Will Drop in On You

Unless you provide the house with Screen Doors and
Windows. Our store is a good place to buy them for
several reasons. You know that some little time ago
screens advanced considerably. We bought long be-
fore this a car load of screen doors and windows, and
are now selling them at old prices.

A complete Screen Door, with
Spring Hinges, Lock, etc., \$1.00.
Adjustable Screen Windows, all
sizes, 25, 30 and 35 cents

No use of being without Screens. You can afford
them for every door and window, at our prices.

If you have not purchased a

BICYCLE,

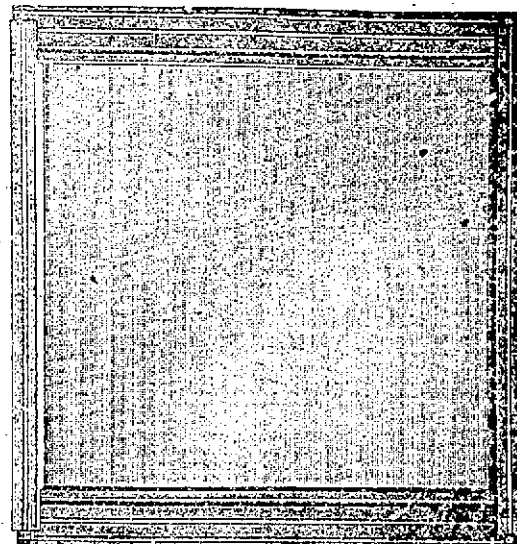

it is high time you did. Every one of these beautiful
balmy days that slips by without your taking ad-
vantage of their beauty with a wheel, is valuable
time lost.
